

Hello Friends!

There are moments in our lives when everything is aligned. Actually, we are aligned with the Universe more than we realize. It is during these moments—when we notice with all our senses what is going on around us—that we connect with the most. Our community is experiencing one of those moments now.

Bridging communication between the Deaf and hearing worlds is my passion. Helping people tap into their innate healing capabilities is my mission. And partnering with others who share this vision is my goal.

For the first time, [Eden Method Year 1 Fundamentals Training](#) is being offered in Virginia Beach. The training empowers people to lead and instruct others in the healing and restorative power of their body's own energies. Once again, my Eden Energy Medicine practice and American Sign Language (ASL) worlds are aligning, and I'm inspired to see where it takes us. As a certified and experienced instructor, I offer this life-changing "Bridge Both Worlds" training to students who speak English and those who use ASL as their native language.

Did you know?

When a person speaks and signs at the same time, one or both of the languages falter.

This is why we need two ASL interpreters for the course, which takes place over four four-day weekends between April 22, 2021, and January 31, 2022. The interpreters provide communication continuity throughout the lessons while I lead the class in the training. This essential support comes at a cost of approximately \$3,780 per weekend.

How can you help?

Become a "Bridge Both Worlds" sponsor

Your generous contribution to covering the cost, or part of the cost, of ASL interpreters would ensure that individuals in the Deaf community have critical access to this important training.

Hour Bridger \$120	Day Bridger \$945	Weekend Bridger \$1,890	Course Bridger \$3,780
